

### December 2009 - January 2010 Cold Spell

The December 2009 to January 2010 cold spell has been compared with previous notable cold spells in 1981-82, 1979, 1962-63 and 1947. The attached graphs for the long-term station at the Phoenix Park in Dublin provide a visual presentation of periods when the mean daily temperature was below normal for the time of year (*the area shown in blue*).

- Temperature above normal
- Temperature below normal
